- Burning is authorized subject to the following conditions:**
- Valid permit must be onsite while burning
  - The following materials are prohibited and must not be burned: garbage, dead animals, asphalt, petroleum products, paints, rubber products, plastics, paper, cardboard, treated wood, construction/demolition debris, metal or any substance (other than natural vegetation) that releases toxic emissions, dense smoke, or obnoxious odors when burned.
  - All materials must originate from the property on which the burning is to occur.
  - The fire must not create a nuisance from smoke, obscure visibility on public roads and highways, or endanger life and property.
  - Maximum pile size is twenty (20) feet in diameter, a minimum ten (10) feet firebreak must be constructed around each pile.
  - Each pile must be at least one hundred (100) feet from any structure and at least fifty (50) feet from standing timber.
  - Do not burn if wind is blowing more than seven (7) miles per hour.
  - Do not burn if wind is blowing from \_\_\_\_\_.
  - A responsible adult and equipment shall be on site and in attendance at the fire while burning. **Must provide 24 hour fire watch.**
  - On Site Water is required for permits between April 15<sup>th</sup> and Oct. 15<sup>th</sup>. A pump truck or trailer with 300 gallons of water loaded and 200 ft of hose. (The pump must be capable of pumping 20 gallons per minute through a one inch (diameter) 50 foot section of hose.)
  - Provide EXCAVATOR/DOZER (with fire extinguisher) on site with qualified operator.
  - Fire must be completely extinguished within three (3) days after ignition
  - Fan required.
  - Upon completion of above conditions, applicant must have inspection & approval before ignition. Call (360)427-9670, ext. 262
  - Applicant's must call 360.427.7761, **EACH** day to report burning activity. Last 3 numbers of permit required at time of call in.
  - Applicants must call 360.586.1044 (ORCCA) **EACH** day to report/request any air quality issues associated with burning.
  - After the burn is complete make sure the fire has not burned into the earth by checking the fire location for hot spots.
  - It is advisable to pump the entire content of the water tank onto the burn site to assure the fire is completely extinguished. The permitted individual is responsible for any rekindling on the fire/burn site.
  - A **BURN BAN** when implemented by Fire Marshal will take effect as noted and all permits become null and void. After a burn ban has been implemented, all fires must be extinguished immediately.
  - Permit includes two (2) inspections maximum, additional inspections will require a re-inspection fee. (at current rate)
  - Access must be passable with 2 wheel drive vehicle

**OWNER/CONTRACTOR:** Acknowledges submission of inaccurate information may result in a stop work order or permit revocation. Acknowledgement of such is by signature below. I declare that I am the owner, owner's legal representative, or contractor. I further declare that I am entitled to receive this permit and to do the work as proposed in the application. I declare that I have obtained the permission from all the necessary parties. If permission is required from any easement holder or any other party in interest regarding this application or the work proposed in the application, I have obtained permission from them to apply for this permit and conduct the work proposed. The owner or agent on owners behalf, represents that the information provided is accurate and grants employees of Mason County & local fire authorities access to the above described property and structure for review and inspection. The person in charge of the fire will be liable for the cost of suppression if the fire gets out of control or if becomes necessary to extinguish the fire as the result of an enforcement action.
