- I am the manager of this water system. The water system has been approved for _____ services. There are presently ______ connection(s) in use. This will be the _______ connection.
- I am the manager of this system. This connection will be to upgrade or change the use of an existing connection on this system (i.e.: recreational to full time). Please indicate on the following line the nature of this change: __________________________________________
  This water system is able and willing to provide water to this (these) connection(s) without exceeding the limits of the water system or any limits set by state and local regulation.

Signature of Water System Manager ___________________________ Date ___________.

This form may be scanned and available for public view on the Mason County Web site.
Individual Water Well

☐ Water well report (attached to application). Depth _______________ ft.

☐ Well capacity Test (attached to application) _______________ gpm _______________ gpd.

The well driller often performs well capacity tests at the time the well is constructed. Results from these tests are noted on the water well report. Results from these tests will be accepted. If the water well report cannot be located by the applicant or if the water well report does not have a capacity test, a well capacity test, which provides stabilization of draw-down and recovery data, must be performed by a licensed contractor.

☐ Satisfactory bacteriological test (attach to application).

Individual Spring/Surface Water

☐ WDOE permit (attach to application)

☐ Method of disinfection _________________________________________________________
___________________________________________________________________________

☐ I have reason to believe that this water source can provide at least 800 gallons per day; and/or provides water at a rate of 2 gallons per minute based on the following observations.
___________________________________________________________________________
___________________________________________________________________________

Author of Statement _______________________________________ Date _______________
Relationship to Applicant _________________________________________

Part 3: Mason County Public Health Evaluation

☐ Satisfactory Determination:
Applicant’s water supply does appear adequate to meet the needs of its intended use.

This determination does not address adequacy of the distribution system, guarantee an adequate supply of water indefinitely in the future, or guarantee compliance with all applicable WDOE water resource regulations.

☐ Unsatisfactory Determination:
Applicant’s water supply does not appear adequate to meet the needs of its intended use for the following reason(s).__________________________________________________________
