

HIB Vaccine Recall

December 13, 2007, the Food and Drug Administration announced a recall of several lots of Merck Vaccines Hib Vaccines, PedVax Hib and Comvax. Washington State does not provide PedVax Hib or Comvax to providers participating in the universal childhood vaccine program. Most providers in Mason County use VFC vaccine provided by the state. If your provider uses private stock vaccine that has been recalled your provider should notify you. If you have further questions you can call the Mason County Immunization Coordinator at (360) 427-9670 ext. 409.
