Shoreline Living Workshop: Creating a Sound Landscape

Monday, December 3, 2007, 6:30 to 9:30 p.m.

A free workshop will teach Mason and Thurston County shoreline residents how to preserve and replant shorelines to stabilize slopes, protect Puget Sound, and provide wildlife habitat. It will be held on Monday, December 3, from 6:30 to 9:30 p.m. at the Griffin Fire Hall, 3707 Steamboat Loop Road, just off Hwy. 101.

Topics will include how to create a beautiful landscape that protects the shoreline and requires little maintenance once established, what you can do on your own and when to call in the experts, how to have a view and trees, too, and other shoreline stewardship tips.

Bring your questions and take home answers along with reference materials for later use. Though the workshop is free, advanced registration is requested to ensure materials and space for everyone. Call 360-427-9670 ext. 680 to register or for more information.

The workshop is sponsored by WSU Mason County Extension through a grant from the Washington State Department of Ecology. Extension programs are available to all without discrimination. Evidence of noncompliance may be reported through your local Extension office.
