Application for Determination of Sewer Adequacy

Instructions:

1. Complete Part 1 of application. Permit number may be added at later date.
2. Take application, Site plan, and any other associated information with the proposed development to the Sewer System Manager or Designated Employee for approval.
3. Submit completed application and information to Permit Center or Mason County Public Health for review.

NOTE: You must supply the System Manager with a site plan for the project, showing all existing or proposed sewer components and lines in relation to proposed development and property.
