SOURCE: 2004 U.S. Census Bureau, Census data for 1990 and 2000, estimated population for 2003

1/ Native American includes American Indians and Alaska Natives.

2/ Other is defined as Asian Americans, Native Hawaiians, Pacific Islanders and all others.

3/ Two or more races indicate a person is included in more than one race group.

4/ Hispanic population is not a race group but rather a description of ethnic origin; Hispanics are included in the five race groups.

SOURCE: 2004 U. S. Census Bureau, Census estimates for 1998-2002

\* Poverty is measured by using 48 thresholds that vary by family size and number of children within the family and age of householder. To determine whether a person is poor, one compares the total income of that person's family with the threshold appropriate for that family. If the total income is less than the threshold, then the person is considered poor, together with every member of his or her family. Institutionalized people, people in military quarters, people living in college dormitories, and unrelated individuals under 15 years old are excluded from the calculation of poverty rates.

SOURCE: 2005 Washington State Department of Health, data 2001-2003

1/ Fetal Death Ratio = fetal deaths per 1,000 live births.

2/ Perinatal death rate = fetal deaths plus deaths to infants within first 6 days of life per 1,000 live births plus fetal deaths.

3/ Neonatal mortality rate = deaths to infants within first 27 days of life per 1,000 live births

4/ Infant mortality rate = deaths to infants under one year of age per 1,000 live births

\* Indicates ratio not calculated because number of deaths was less than 5
